Pharmaceutical & Healthcare Company

Since 2014 • Iran

COMPANY PROFILE

For International Business Development

Production • Import • Raw Materials • Dietary Supplements

Seeking Long-Term Partnerships with International Manufacturers

Quality • Reliability • Transparency • Mutual Growth

About the Company

Apadana Giti Mehr Co. is an Iranian pharmaceutical and healthcare company with an established track record since **2014**. The company has been active across several segments of the healthcare industry, including the production and import of pharmaceuticals, dietary supplements, pharmaceutical raw materials, and raw materials used in supplement production.

Over the years, Apadana Giti Mehr has developed valuable experience in product development, manufacturing, sourcing, and commercialization, building a solid foundation for further expansion of its activities in the pharmaceutical and healthcare markets.

Our Areas of Activity

Pharmaceuticals Production & Import	Dietary Supplements Development & Manufacturing	Raw Materials Sourcing & Distribution
---	---	---

Manufacturing Capabilities

The company has successfully developed and manufactured a range of dietary supplement products, including **effervescent collagen supplements** and **collagen sachets**, demonstrating its capabilities in product development and local manufacturing. In the cosmetics and personal care sector, the company has also been involved in the production of beauty and skincare masks and related products.

In addition to its manufacturing activities, Apadana Giti Mehr has gained experience in the domestic sourcing, purchasing, and distribution of pharmaceutical and supplement raw materials, allowing the company to develop an understanding of local market requirements, customer needs, and supply-chain dynamics.

Our Development Strategy

Building on our existing experience and market knowledge, Apadana Giti Mehr is currently entering a new phase of business development with a strong focus on **international sourcing** and **direct cooperation** with qualified pharmaceutical manufacturers and suppliers worldwide.

As part of this strategy, the company aims to establish direct and sustainable business relationships with reputable international manufacturers of:

- Active Pharmaceutical Ingredients (APIs)
- Excipients and pharmaceutical raw materials
- Supplement ingredients and specialty ingredients
- Other healthcare and personal care products

Direct sourcing will enable us to strengthen our supply chain, ensure consistent product quality, improve supply reliability, and develop long-term strategic partnerships with international companies.

As the next stage of our development, we intend to expand our activities into the **direct import and commercialization of finished pharmaceutical products** in the Iranian market. This expansion will allow us to further diversify our portfolio and create new opportunities for cooperation with international pharmaceutical companies seeking to enter or expand their presence in Iran.

We are actively seeking reliable international partners for long-term collaboration in sourcing, regulatory support, market development, and distribution.

Our Vision for International Cooperation

Apadana Giti Mehr is committed to developing long-term, mutually beneficial partnerships with reliable and quality-oriented international manufacturers. We are particularly interested in cooperation with companies that are looking for a knowledgeable and committed local partner capable of developing the market and establishing sustainable commercial operations.

Our objective is not limited to short-term sourcing activities. We aim to build stable, long-term partnerships covering:

- Product sourcing and supply chain management
- Regulatory activities and compliance support
- Market development and commercialization
- Distribution and local market access

Why Partner with Apadana Giti Mehr?

Local Market Expertise Deep understanding of Iranian healthcare regulations, customer needs, and distribution channels	Proven Track Record Successful product development, manufacturing, and commercialization experience since 2014
Supply Chain Knowledge Established experience in sourcing, purchasing, and distribution of pharmaceutical raw materials	Long-Term Commitment Focus on building sustainable partnerships based on quality, reliability, and mutual growth

With our experience in the Iranian healthcare market, established commercial capabilities, and growing focus on international business development, Apadana Giti Mehr is positioned to become a **reliable bridge** between international pharmaceutical manufacturers and the Iranian market.

We welcome the opportunity to explore potential cooperation with reputable international companies and to develop a long-term and successful business relationship based on quality, reliability, transparency, and mutual growth.
